[Read the fantastic manual!](#)

I just love **bold text**.

Italicized text is the *cat's meow*.

Dorothy followed her through many of the beautiful rooms in her castle.

- 1. First item
- 2. Second item
- 3. Third item
- 4. Fourth item

- First item
- Second item
- Third item
- Fourth item

At the command prompt, type nano.

```
const fencedCode = () => {  
  return "Fences make good neighbors.";  
}
```

Syntax	Description
Header	Title
Paragraph	Text

That is so funny! 😂

Admonitions

Scenario This is a "scenario" admonition that can be used at the beginning of lab guides to provide context about the upcoming tasks.
It will appear in between dotted lines.

Note This is a "note" admonition for general notes and information.
It will appear in a "light gray" color.

Info This is a "info" admonition that can be used to provide credentials or information needed for a task.
It will appear in a "light blue" color.

Tip This is a "tip" admonition that can be used for helpful hints or side info.
For example: use it to provide links to useful resources or best practices. It will display in "teal" color.

Hint This is a "hint" admonition that can provide subtle guidance during challenging tasks.
For example: "If you can't find the answer, check page 2". It will display in a "light violet" color.

Caution This is a "caution" admonition that can be used for potential pitfalls.
For example: "Remember to save the value of x, you will need it later". It will display in a "yellow" color.

Warning This admonition can be used for important "warnings".
For example: "While in this lab we are using "all time" in our searches, this is not recommended in a production environment." It will display in an "orange" color.

Danger

This is a "danger" admonition for critical alerts.

For example: "Do NOT delete or overwrite the x file while copying these files to the new location." It will appear in a "dark orange" color.

Answers

Resources

This page will appear at the **end** of a PDF lab guide or in the "home" page of the corresponding Splunk app (After the introduction).

You should use this section to provide any additional relevant links for the learner. Below are some markdown examples:
